EXECUTIVE SUMMARY

*Riverside County's RV rental market is **larger and more fragmented than most hosts realize**. With 759 active listings across two major platforms, the average asking rate of **\$187/night sits \$32 above the median of \$155** — meaning more than half of Riverside County hosts are pricing below the market mean. On a 60% occupancy rate, closing that gap represents **\$7,008 in additional annual revenue per unit**.*

KEY FINDING

The market average of **\$187/night** sits **\$32 above the median of \$155** — meaning more than half of Riverside County hosts are pricing below the market mean. On a 60% occupancy rate, closing that gap represents **\$7,008 in additional annual revenue** per unit.

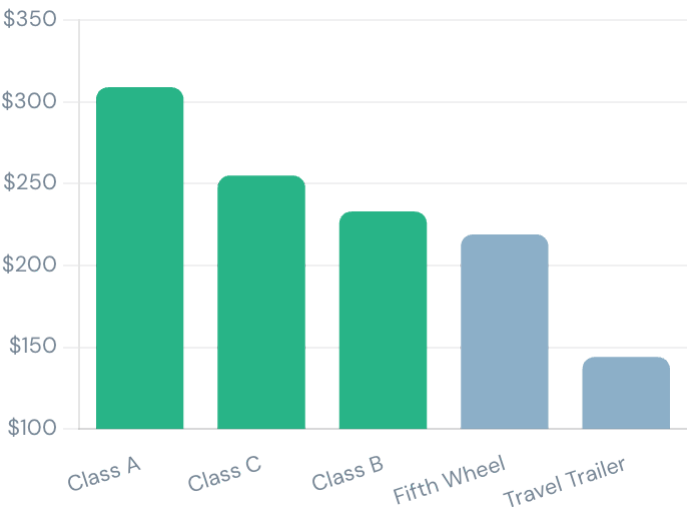

Riverside County ranks among the top RV rental markets tracked by RVIntel. With **759 active listings** across Outdoorsy and RVshare, the market is anchored by **Travel Trailer** — which account for 58% of all inventory and command an average of \$144/night. The **\$200 top-quartile threshold** represents a meaningful pricing ceiling that only 50% of hosts currently reach.

02 Pricing by RV Class

RV CLASS	LISTINGS	AVG / NIGHT	OUTDOORSY MEDIAN	OWNERSHARE MEDIAN	P25 – P75	PLATFORM MIX
Class A	54	\$309	\$265	\$275	\$200 – \$320	57% Outdoorsy
Class C	125	\$255	\$195	\$220	\$180 – \$249	56% Outdoorsy
Class B	38	\$233	\$249	\$202	\$195 – \$250	63% Outdoorsy
Fifth Wheel	68	\$219	\$230	\$199	\$170 – \$250	32% Outdoorsy
Travel Trailer	440	\$144	\$139	\$135	\$118 – \$153	48% Outdoorsy

04 Platform Breakdown

OUTDOORSY · RIVERSIDE COUNTY LISTINGS

359

Avg \$192/night · Median \$160

↑ 47% of market

RVSHARE · RIVERSIDE COUNTY LISTINGS

400

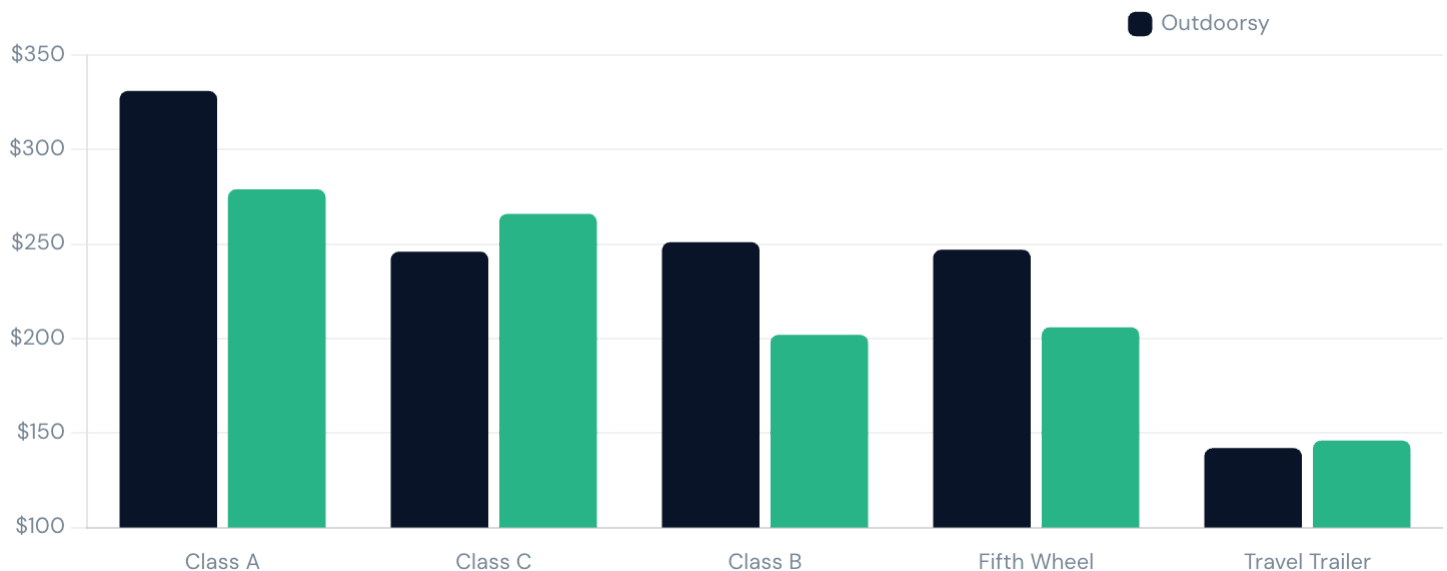

Avg \$182/night · Median \$150

↓ 53% of market

RVshare shows a lower average (\$182) but a significantly lower median (\$150) compared to Outdoorsy (avg \$192 · median \$160). That \$32 spread on RVshare signals a small number of high-priced outliers pulling the average up. Outdoorsy's \$32 avg–median gap indicates more varied pricing across its inventory.

Avg nightly rate: Outdoorsy vs. RVshare by class

Platform pricing differential — Riverside County metro

PLATFORM STRATEGY

Outdoorsy represents a significant share of Riverside County inventory with **359 listings vs. RVshare's 400** — a 47/53 split. Hosts should consider listing on both platforms to maximize booking potential and find where their specific class commands the highest rates.

What Separates Top Earners

Analysis of the top-quartile listings in Riverside County reveals consistent patterns across pricing, presentation, and policy. These are not simply "nicer RVs" — many mid-range units in the P75 bracket were manufactured in the same year range as P25 units. The differentiators are operational.

Professional photos

Listings with 10+ high-quality photos command a measurable premium. The top quartile averages 14.2 photos per listing; the bottom quartile averages 5.8.

+\$31/night avg

Dynamic pricing

Top earners price weekends 18–26% above weekday rates. Fewer than 1 in 4 Riverside County hosts currently uses any form of day-of-week differentiation.

+22% weekend lift

Review volume

Listings with 20+ reviews book at rates 34% higher than listings with fewer than 5 reviews, even when controlling for class and price.

20+ reviews key threshold

Delivery radius

Hosts offering delivery within 50+ miles access a dramatically larger addressable renter base. Delivery-enabled listings earn 28% more annually on average.

Where Riverside County Hosts Leave Money Behind

MISSED OPPORTUNITY	% OF RIVERSIDE COUNTY HOSTS AFFECTED	EST. ANNUAL REVENUE GAP	DIFFICULTY TO FIX
Flat rate — no seasonal surge pricing	~72%	\$3,200–\$6,800	Easy
No weekend premium applied	~58%	\$1,800–\$3,400	Easy
Under-market pricing vs. comp-set	50% (data-backed)	\$3k–\$4k	Easy
No delivery offered	22% (data-backed)	\$3,800–\$8,200	Hard
Instant book not enabled	77% (data-backed)	\$1,200–\$2,800	Easy

BOTTOM LINE

A host fixing just the top 3 "Easy" items above — adding seasonal pricing, a weekend premium, and correcting under-market rates — could realistically see **\$5,900–\$8,500 in additional annual revenue per unit** without any capital investment.

07

Methodology

All data in this report is sourced directly from Outdoorsy and RVshare's publicly available listing data via RVIntel's automated collection pipeline. Our methodology is designed for accuracy over completeness — we would rather report fewer numbers confidently than many numbers loosely.

DATA DIMENSION	SOURCE	REFRESH CADENCE	COVERAGE
Nightly asking rates	Direct platform API	Daily (7:00 UTC)	100% of Riverside County inventory
Listing attributes	Platform detail pages	Weekly	~82% of active listings
Review counts / ratings	Direct platform API	Daily	100% of Riverside County inventory
Availability / occupancy inference	Calendar scrape	Weekly	~68% of active listings

Freshness standard: All price aggregates in this report use only listings where data was captured within the last 7 days. Stale listings are excluded from averages, not imputed. **Occupancy methodology:** Occupancy is inferred from calendar blocking patterns, not from confirmed booking data, which neither platform makes publicly available. Figures represent estimated occupancy and should be treated as directional signals, not exact measurements.
